PROJECTS & INTERNSHIPS

PANDA | GITHUB
DEEP LEARNING, WEB APPLICATION

- A Smart Virtual Voice Assistant built using Python, NLP that can listen, understand, and respond to your voice commands just like Alexa, Siri, or Google Assistant.
- It performs various useful tasks such as searching the web, opening applications, telling the time, playing music, answering questions, and much more.

SMART NOTES SUMMARIZER | GITHUB
NLP, PYTHON

- An AI-powered tool that simplifies long texts into concise summaries.
- It enhances productivity by extracting key insights, making information easier to digest.

VIRTUAL INTERNSHIPS

AICTE

- Google Android Developer
- Data Engineering

CERTIFICATIONS

- Data Analytics and Job Simulation | Deloitte
- Data visualization | Accenture
- AWS Certified Cloud Practitioner | AWS

ACHIEVEMENTS

- Secured **2nd Prize** in **Engineer's Day Speaking Competition,** Organized more than 3 events**.**
